The Background

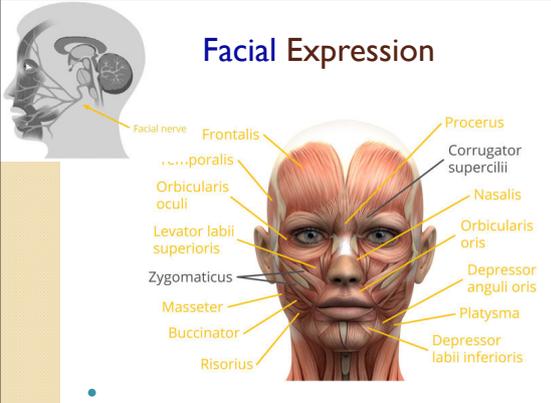

Implicit vs Explicit response

System 1 Unconscious		System 2 Conscious
Effortless Automatic Fast Involuntary		Effortful Deliberate Slow Controlled
Implicit Responses		Explicit Responses

A full understanding of the sensorial journey combines both routes

Bio-Sensors could help to understand implicit decision

Facial Expression

Labels include: Frontalis, Procerus, Corrugator supercillii, Nasalis, Orbicularis oculi, Levator labii superioris, Zygomaticus, Masseter, Buccinator, Risorius, Orbicularis oris, Depressor anguli oris, Platysma, Depressor labii inferioris, and Facial nerve.
